

Duluth Climbing & Fitness Co-op: Access Pass Drive!

Hey there, DCFC community! We've been working away in the space to get the wall built and panels hung - which we aim to have complete by the Access Pass Drive. Before we get into those details, here's a quick build out update!

Build Out Update

The frame for the main wall is complete, and the first panels on the 30 degree portion of wall are officially hung. This is a huge step for us! It's been quite the process to watch the space transform from a kettlebell gym, to a 3D rendering, to a skeleton wall, to having the first climbing surfaces installed! None of this would have been possible without the help and generosity of our community - **THANK YOU!**

Board members Alex (L) and Tony (R) scrutinize the completed wall framing

A mix of board members and volunteers work together to hang the first panels on the 30 degree wall

Access Pass Drive Details
